RE: Bid 6039 - Purchase of Traffic Signal Control Equipment

Dear Council Members:

The traffic signal controllers we are seeking will be used in two (2) traffic signal installations that will be completely modernized and at six (6) intersections where the controllers will be replaced as part of our controller replacement program.

The controllers included in this purchase will replace electromechanical control units installed in the 60's. These electromechanical units require extensive maintenance and replacement parts are becoming increasingly difficult to obtain.

The items included in this purchase were included in our 1993 departmental budget approved by Council in September, 1992.

Sincerely,

Steven W. Davis
